

THE WRECK ON 20TH CENTURY

Fifteen Dead and a Dozen Slightly Wounded

Cleveland, Ohio, June 22.—Nineteen dead and a dozen slightly wounded tonight comprised the wrecked casualty list made by the twisted last night at Mentor, O., of the eastbound 20th Century limited, the Lake Shore railroad's eighteen floor train which ran into an open switch, crushed the Mentor depot and partly burned it up, scattering several of the mangled corpses. The 20th Century, according to a bulletin from New York, will be rerouted from New York to New Haven on 30th schedule, although none of the rail way officials ascribe the wreck to excessive speed. It is still maintained by railroad officials that the switch was thrown open and locked, and the switch light extinguished by some person, either a man, or someone seeking revenge. It is still unknown to the police why this person is. Careful examination of the switch today showed that it was in perfect condition. Detectives are working on the case. The trainmen are of the opinion that the engineer of the 20th Century was deceived by the light of the switch, of which he opened switch, the last of which he said to have been out.

W. H. Marshall, general manager of the Lake Shore, says the speed of the train was not a contributory factor to the wreck. He said that other Lake Shore trains travel through Mentor at a speed equal to that attained by the 20th Century last night which are not, Mr. Marshall said, above sixty miles an hour. The schedule for the train called for a speed of 57 miles an hour at Mentor.

Corner York, of Lake county, announced this evening that an inspection would begin next Monday in Pennsylvania. It is possible that investigation tomorrow will develop that the switch was modified with the switch at Mentor last night and caused the wreck. Cleveland, O., June 22.—Wm. F. Fisher, ticket agent of the Nickel Plate road, and James Barnes, of Willoughby, reached the wreck site this morning after it occurred. On the way they took the train they met a boy carrying a lantern. The boy said he had been down to shut a switch. The train went on to the wreck and found the switch open and locked. The men are of the opinion that the boy thought that the switch opened the switch and closed the switch to let it through to the siding.

R. S. Storer, the general superintendent of the Lake Shore, said the wreck would be investigated tomorrow, although he is inclined to believe that a boy had possession of a key and could turn the switch.

EXHIBITION NOTES

The entries for the Bunch Show at the Summer Fair are coming in steadily. Everything now points to over a hundred dogs being shown. Many entries are being received from outside towns.

Judge Cole, of Kansas City, who is to officiate at the Summer Fair in the dog classes, is a man of wide experience, and enjoys the reputation of being the most efficient judge of the kind in the country. He was at the International Bunch show at the World's Fair, St. Louis, was hailed with delight by dog fanciers all over America.

The races are attracting attention in Southern Alberta. Several entries have been booked for the Alberta Derby from Macleod and Pincher Creek. A large string of thoroughbred and local racing men are enthusiastic over the prospects.

The live stock exhibition will be discontinued for this year and an improved system of identifying exhibits will be adopted. A red card bearing the identification number contained in the card will now will be tucked up on each stall. This will enable visitors to tell the name and age of stock exhibited at a glance.

Preparations for the grand fireworks are now being made. The fireworks will be set off from the bluff facing the river and will proceed within a day or two.

BIG ESTABLISHMENT IN VANCOUVER

Calcutta, July 22.—A splendid new hotel, the Victoria Hotel, is being built on the Victoria wharf, Calcutta. It is a magnificent building, and will be one of the finest in the city.

THE INCENIOUS MR. OMYZEZE

A G. J. Smith, with an unpronounceable name of 25 Omyzeze, must have been roving in the "Omyzeze" that there was a sudden change in the name of the "Omyzeze" was started out to see for himself.

He recently been working for P. Burns & Co., and Wednesday he was the holder of his pay, which amounted to \$4.50 and was given a cheque in payment.

A get-to-know-me entered his head and in rather an artistic manner he raised the amount to \$4.50. When he finished with the job that cheque was a sight to behold.

The word "story" looked like this—"fourty"—and the figure 4.50 was altered in this manner, 4.50.

Then he started out to make himself \$6.00 richer. He first tried the Calgary Clothing Co., but they turned him down. Watson Bros. did likewise. G. C. King & Co. did not like the looks of it either. He was a persistent, inviolable thought and kept right on after that extra \$6. D. E. Black the jeweller looked at the cheque.

He showed his partiality for jewellers by trying W. J. Breckbridge next. That gentleman did not think he wanted any of his game either. The next move made by Mr. Omyzeze proved to be one of the greatest mistakes in his life. He went in to see P. Burns & Co.'s men in the market and produced the now well-known cheque. The clerk in the office was very sorry that he did not have enough money in the store to cash the cheque, but was quite willing to accompany the gentleman to a place where they could cash it.

That is just what Mr. Omyzeze wanted, and he was quite willing to accompany him to the bank. They went together to the bank, and he was advised to go to the bank. He was after banking hours at that institution, so he was advised to go to the bank.

He was after banking hours at that institution, so he was advised to go to the bank. He was after banking hours at that institution, so he was advised to go to the bank.

BANFF SANITARIUM.

The new Banff Sanitarium building when completed will have about 100 rooms, 40 of which will be fitted up with bath, electric light, all steam heated and furnished with electric light.

The central portion of the building has five stories, the upper story being used for a recreation room, specially fitted up in elegant style for use as a recreation room, where guests may while away the time in music, sketching, reading and so forth. The view from this observatory is grand.

On the ground floor, which is surrounded by wide verandas, is the dining room, 30 x 60, the rotunda, 30 x 40, office, waiting rooms, smoking room, etc.

The dining room, rotunda and ladies' waiting rooms are each furnished with a very looking Old English fireplace.

The interior is all furnished in polished British Columbia fir. The rooms are all large and airy, a good many being arranged in suites.

It is expected that the mid-climate at Banff and the complete arrangements brought about by the new addition to the Sanitarium will be a great benefit to the health of the people of the province and others desiring a CHANGE from the cold of this winter.

GRAND VIEW VILLA. This is a member of the K. G. Brett's establishments. It is situated in the heart of the SPRINGBUSH and is now open to receive guests. The Grand View has accommodations for about fifty. The rooms are all well furnished and heated with electric light.

This can well be said to be the SCENIC HOTEL of the Canadian Rockies. The view from its balconies, parlors and bedrooms are unequalled.

The baths here are given with water direct from the Hot Springs and are special in the treatment of RHEUMATISM and GOUT, as well as many other ailments. An experienced masseur is in attendance.

Winter rates for board and room from \$15.00 and \$17.50 per week. For particulars apply to MISS M. MCLELLAN, Manager.

Millionaire in Overalls

CORNELIUS VANDERBILT AS HE WORKS IN HIS MACHINE SHOP.

Few wage earners work any harder than does young millionaire Cornelius Vanderbilt, Jr. Unlike some other young men who have come into the inheritance of vast wealth, Cornelius Vanderbilt, Jr. is a man of strong principles and a firm believer in the ability of labor.

After his graduation from Yale university the young man decided to equip himself with a thorough practical knowledge of every branch of railroad work. Donning a pair of overalls and jumper, he worked side by side with ordinary mechanics, spending two years in the motive power and civil engineering department of the New York Central Railway.

He is an expert mechanic and has already perfected several inventions which have come into use as improvements in railway equipment. One of these inventions is a device for use on locomotives which has the effect of facilitating the removal of the fire box from an engine, thus expediting the work of cleaning the fire box.

In this picture Mr. Vanderbilt—has on one of "Finck's" Detroit Special No. 755 Coats and "Finck's" Detroit Special No. 12 Reversible Overalls. All other "wage earners" are now asking for and demanding "Finck's" Detroit Special garments—Union Made—made in Detroit. For sale by all the leading dealers throughout the country.
